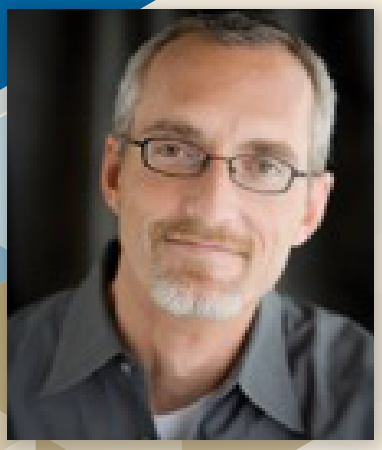
Overland Park Convention Center | 6100 College Boulevard, Overland Park, KS 66211

Doors open at 11:00 for networking and meet the speaker
Lunch service and program begins at 11:30

AN ***UNCONVENTIONAL BUSINESS*** STORY...

Phil Vischer

– VEGGIETALES CREATOR –



Phil Vischer made his first animated film when he was nine years old; by the age of fourteen, he was convinced he would be a filmmaker when he grew up. After a brief stint at a Bible college, Phil struck out on his own, looking for a way to integrate his faith with his filmmaking.

This quest led him to a tomato and a cucumber. The year was 1991, and Phil was a newly married 25 year-old with no financial backing and no idea how his vegetables would ever see the light of day.

Today, almost 50 million VeggieTales videos have been purchased and Phil's faith- filled stories can be found in one-third of all American homes with young children.

As an author, filmmaker and the creator of VeggieTales, Phil has received standing ovations from our St Louis and Des Moines audiences as he shares his compelling story of first, following his dreams his way, and today, approaching them God's way. Mixed with humor and humility, Phil transparently shares his journey from success into bankruptcy and the lessons he learned.
