A GATHERING OF **FAITHFORWARD™** BUSINESS WOMEN...

Denise Mills Chief Mindset Officer, LeaderFuelNow

Denise Mills is Founder and Chief Mindset Officer of The LeaderFuel Center, a global leadership development consulting organization. Her title fits her well as she challenges mindset and perspectives with leadership teams for greater effectiveness.

Denise works with leaders in local organizations such as Honeywell, Sprint, Compass Minerals, KCP&L, UMB, and CommunityAmerica Credit Union; non-profits such as Comprehensive Mental Health Services, Tri-County Mental Health Services, Mattie Rhodes Center, Johnson County Library, Ronald McDonald House, Boys and Girls Club and many Catholic parishes; government agencies such as the US State

Department, the Government Accountability Office and United Nations NGOs; and global organizations such as Dupont International, Service Management Group, and Toyota to name a few.

Denise is an Iowa farm girl, comes from large family and deeply values her Catholic upbringing, however, her Religious life and spirituality were kept very separate from her work and her work was distinctly separate from her Faith. Several years ago Denise felt called to bring her Faith Forward in all aspects of her life, including in business and with her clients. Galatians 2:20 "I have been crucified with Christ and I no longer live, but Christ lives in me. The life I now live in the body, I live by faith in the Son of God,who loved me and gave himself for me." Join us to hear the story of her journey from "obligatory Catholic" to good and faithful servant to how she strives to put God first in all aspects of her life.
