Overland Park Convention Center | 6000 College Blvd., Overland Park, KS

Doors open at 11:00am for networking and program begins at 11:30am

AN UNCONVENTIONAL BUSINESS STORY...

Mary Vermeer Andringa

- CHAIR OF THE BOARD, VERMEER CORPORATION -

Mary Vermeer Andringa is Chair of the Board at Vermeer Corporation—a global equipment manufacturing organization with more than 3,000 team members in Latin America, Asia Pacific, China, and Europe. In her tenure, she has served as CEO, COO, and President, with a focus on continuous improvement and innovation.

Mary is a highly recognized advocate and sought-after speaker for the manufacturing industry and small business community. She is a member of B20, a private channel that advocates for small businesses and entrepreneurs. In addition, she served a two-year term as chair of the National Association of Manufacturers (NAM), the nation's largest manufacturing association. Today she serves as Honorary Vice Chair. Mary was also one of 18 appointed to President Obama's private sector Export Council, in which she represented manufacturing on important trade matters. Reflective of her contributions, she was inducted into *IndustryWeek's* Manufacturing Hall of Fame in 2013.

Perhaps Mary's most important role is continuing the family legacy of her father and Company Founder, Gary Vermeer— which includes the ongoing integration of faith into the Vermeer culture. You will not want to miss her "Unconventional Business" insight into "Sustaining a Legacy of Faith at Work: From Founder to Future Generations of Leadership"
